Welcome To Duke

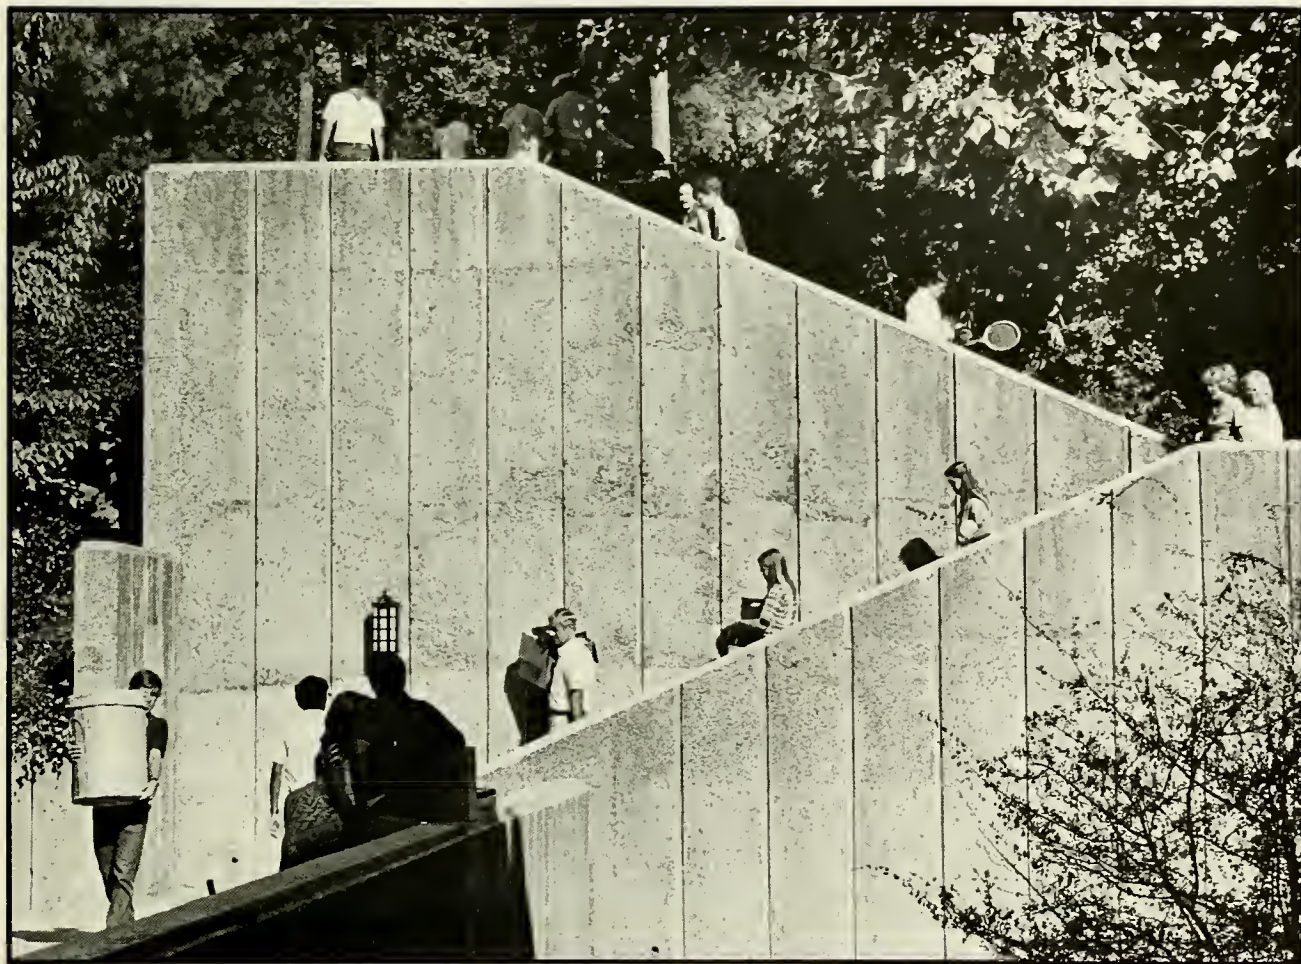

You now belong to a family of Duke students whose roots go back to Trinity College in the 19th century.

Your years at Duke will be an intense period of personal and intellectual growth. Friends you make here will be an important part of your life. To help you meet your classmates — and match names with faces — the Alumni Association has prepared this class directory for your use. We hope it will help make your early days at Duke even more enjoyable.

While you attend Duke, you will meet alumni on numerous occasions such as seminars on career counseling, homecoming weekends and Duke events in your local area. As will be apparent from our continued interest and enthusiasm, we have developed a great loyalty to Duke and hope that you will too.

Best wishes.

John A. Koskinen '61
President, General Alumni
Association

Preparing for an uncertain future

As members of the Class of 1984, you are starting your college careers at a time when universities in the United States are in the midst of a strenuous appraisal of the purposes of universities in general and of their undergraduate components in particular. A reexamination of priorities and values in academic communities characteristically appears every decade or so, influenced by internal pressures for reform and by external conditions which impinge directly on university concerns.

Be that as it may, and whatever the external circumstances, as entering students at Duke you will share with those who came before you the indisputable benefits of a college education at a good school. Your years with us at Duke will be an adventure in learning about yourselves as individuals; you will grow in intellectual and emotional maturity. Duke is a place where you will discover — sometimes with pain as well as with pleasure — where your talents lie and so what careers are realistically possible for you. You will discover how well and in what ways you can manage the stresses created by academic and social pressures. You will discover how you relate to people different from yourselves whether because of their sex, age, race, religion, ethnicity, region, economic circumstances or interests. And, you will learn how well you can create good personal standards of morality and integrity when you are free from home constraints, faced with many unfamiliar choices and responsible for your own behavior.

For students, the college years are always a period of intense living in the here and now — by no means merely a period of preparation for the future.

The faculty and administration of the University, in the midst of the highly charged atmosphere created by you our students, try to raise your expectations and your standards and to expand your personal aspirations beyond those already familiar to you. In the meantime, we try to direct your attention to and make available to you the kinds of learning and experience that will enable you to achieve your goals.

What I have described seems straightforward enough. Why then a need to reexamine undergraduate education every so often? The need arises because the university, if it is doing its job properly, is educating citizens of the United States and of the world, not simply individuals aspiring to personal fulfillment. The men and women who earn Duke degrees are likely to be leaders in industry, government and

the professions. You, like your predecessors, will have influence on and will be influenced by the social fabric of which you are a part. The kind of people you become will matter not only to you and your family but also to your community, to the United States, and to the countries of the world.

Our problem is that we cannot, amidst changing external conditions, be sure of what knowledge and what talents will best prepare the citizens of the future. It is likely that the most lucrative professions now will not remain so as new combinations of knowledge and skill become more useful to the polity which supports us all.

We at Duke are convinced that a liberal arts education provides the variety and therefore the flexibility which can best prepare students for rich personal lives and for their role as citizens in an uncertain future. At its most successful, a liberal arts education results in an understanding of the nature of knowledge as it is reinterpreted in each generation and of how new knowledge is produced, analyzed and synthesized in mathematics and the natural sciences, in the arts and the humanities, and in the social and behavioral sciences.

In addition, a liberal education conveys sufficient information discovered by each of these major disciplines to serve as a base from which a person can go on to acquire new learning as changing circumstances demand. Such information also enables a person to discriminate the true from the false, the elegant from the shoddy, and the well-reasoned from the flashy.

A liberal arts education provides many perspectives: A time perspective — the realization that the present moment is bounded by and to its relation to past and future history; a space perspective — the

realization that a presently inhabited spot is bounded by and to its relation to other places on the globe and, indeed, the universe; a cultural perspective — the realization that our present way of life is only one of many viable possibilities and is bounded by and to the different cultures of other people in the world; and, an artistic perspective — the realization that contemporary forms and styles in the arts are bounded by and to their past, present and future contexts.

The capstone of our ideal education is the mastery of one subject in a major field which serves as a prototype of what advanced knowledge in one field of inquiry is like and the discovery of the sheer joy of intellectual exploration.

During your freshman year at Duke we shall be discussing the details of how the purposes of a liberal arts education can best be achieved. Literacy in mathematics and the natural sciences and knowledge of how computers work now seem essential, but should all these subjects be required of all students? Is college-level English necessary for all students to prevent the proliferation

of sloppy, often incomprehensible writing? Is knowledge of the history of the Western world and its arts and sciences essential so that students can gain a wide perspective, or should they be required to learn instead (or in addition) the history of the non-Western world and its past and present influence on the West? Should the highest graduation honors be given only to those who have mastered their major subject well enough to have written an honors essay, or should high honors be the reward of wide and general excellence?

As we welcome you to your first year at Duke, we hope you will join us in thinking about these and other aspects of undergraduate education and that you will debate them among yourselves and with the faculty. We are pleased to have you with us.

Ernestine Friedl
James B. Duke Professor of Anthropology
Dean of Arts and Sciences
Dean of Trinity College

Contributing to the Duke community

Yes, you are the men and women of the Class of '84 and you might as well get used to it. It may seem unusual to you now, being addressed as men and women, but it's a label whose time has come in your lives, and has come to stay.

Over these next four years comprising your undergraduate career at Duke, you'll have an abundance of opportunities to "practice" being men and women. As never before, you will be responsible for every aspect of your life and well-being, from personal relationships to personal hygiene, from diet to debts. Academic studies, probably your major concern in choosing Duke, will be only one portion of your overall concerns now; and as Mark Twain warned, while they are certainly important, they shouldn't get in the way of your education.

You will be learning so many things here at Duke over these next years, more than you can possibly imagine at this point, but none of them more important than what you each will learn about yourself. And one of the most effective, most enjoyable avenues toward self-knowledge and self-realization available to you will be the rich track of co-curricular activities at Duke. These activities range from concert presentations to student government, from club sports to student publications, and will all provide valuable outside-the-classroom learning experiences.

Unlike your academic endeavors, these activities will provide no grades or academic honors or other such rewards. Instead, your most gratifying reward for a job well done in these activities will be your self-satisfaction and pride in making a valuable contribution to the quality of life of the Duke community. These activities touch virtually every member of the campus community and enrich the lives even of the most casual visitors to the University.

This is one remarkable adventure on which you are about to embark, certainly one of the most exciting and challenging and potentially profitable adventures of your entire life. Rarely will you find a comparable opportunity for personal growth. And rarely if ever will you find the mechanisms, the vehicles, the resources, the facilities and the professional guidance so readily available to nourish your development. Take advantage of us.

Get all you can while the getting's good. And take our word for it: At Duke, the getting is good.

Jon J. Phelps
Director, University Union

Everything you always wanted to know about Duke*

Now that you are a true Blue Devil you will be besieged in your first few weeks by a number of acronyms, terms and phrases that you may have never heard before. You were smart enough to get into Duke, so you will probably figure them out soon enough. But here is a "cheat sheet" just in case.

ADVICE — Your academic adviser will give it by appointment only, your professor will give it over coffee in the C.I., upperclasspersons will give it over pizza in the dorm. Weigh it all carefully — some sources are better than others.

AFTER YOU GRADUATE, (as in "What are you going to do after you graduate?") — A question that may be asked freely of freshmen and sophomores, hinted at with juniors and never, NEVER, to be asked of seniors.

ASDU — Associated Students of Duke University, the official student government. ASDU has two bodies: a legislature composed of one representative per 100 students, elected through dormitories, and the executive committee, composed of representatives chosen by the students in a general election and executives appointed by the president. When working properly, the body makes policy recommendations to the administration and chooses all student members on university committees.

BASKETBALL — THE sport at Duke. It's also the main topic of conversation from November through March.

BEACH — Where students escape to in the spring. Fort Lauderdale is the place to go for spring break; Myrtle Beach, S.C. is the post-exams/pregraduation retreat.

BUSES — What take you from East to West and vice versa, what get incredibly crowded between classes, and what invariably don't run when it's raining and you're late.

CAMBRIDGE INN — Called the C.I., the Cambridge Inn is the West Campus hot spot, featuring strong coffee, beer on tap, frozen yogurt and junk food munchies.

CAR — If you don't have one, become friendly with someone who does. A car is important for off-campus or out-of-town sanity-saving trips.

CHAPEL HILL — Where some of the best restaurants and bars in the area are located. A 20-minute drive. Also the home of another major North Carolina university.

CHRONICLE — Duke's five-day-a-week newspaper that includes a weekly magazine called *Aeolus*. (That's pronounced EE-uh-lus.) The crossword puzzle is a lunchtime addition. Editors are elected by the staff; anyone can write.

DOPE SHOP — Home of the official Duke T-shirts, best milkshakes in town and more Duke paraphernalia than anyone imagined could exist.

DOWN UNDER — Located underneath Gilbert-Addoms dormitory, the D.U. is famous for peanut butter milkshakes and

popcorn. The weekend begins here on Thursday nights.

DROP/ADD — The world's longest line. Held the second day of class each semester from 4 to 6 p.m. If you get a permission note from the professor of the course you want to "add", you guarantee admission and avoid the long line.

DURHAM — Not a bad place. Getting to know it may be one of the nicest things you can do.

EGG DROP — An event which often draws a lot of attention during Oktoberfest, the campus fall festival. The objective is to drop an egg off a building in a device which prevents breakage. Always eggciting. See **ENGINEERING**.

ENGINEERING — A major for some 200 members of your class. Contrary to popular belief, not all engineers wear calculators on their belts or converse only with computers.

FOOD — One of students' favorite gripes; you decide. See **PITS**.

FOOTBALL — Second fiddle to basketball in ACC (Atlantic Coast Conference) country. The games in the stands usually are more fun to watch than the game on the field.

GARDENS — The best on-campus escape. Just a few steps from main quad, the Sarah P. Duke Gardens have lots of nooks, crannies and open spaces for playing, studying or pondering the meaning of life.

*but didn't know who to ask

GOTHIC BOOKSTORE — The best place on campus to kill time. Located next to Page Auditorium, the bookstore has a wide range of enjoyable reading; what it doesn't have the salespeople will order for you.

GRADELI'S — Trent Drive Hall's sub sandwich/ice cream sundae haven.

GRADES — Not worth worrying about as much as you may think. To keep in mind: Midterm grades are usually lower than final grades, and your grades tend to get higher as you get older.

GREEKS — Fifty percent of the undergraduate men and 30 percent of the undergraduate women. Mother's advice: Try rush and then decide what is best for you.

HIGH SCHOOL AND OTHER DATA FROM YOUR PAST — Who you were or what you did in high school, along with your SAT scores, schools you turned down, etc., should be discussed only with other members of your class. No offense, but no one else cares.

HIDEAWAY BAR — the late-night hangout that has beer on tap, a television set and pool tables. Hidden away next to Page Auditorium, if you can find it.

INDEPENDENTS — Those who aren't greeks. Come in all shapes, sizes, degrees of beauty and intelligence. Also, those who support John Anderson.

INTRAMURALS — Athletics for non-athletes. A number of sports are played year-round. The PE department has information.

JAMES BUCHANAN DUKE — The man who watches over West Campus. This statuesque figure sports different costumes on different occasions.

JUDICIAL BOARD — A student-faculty board that tries cases ranging from academic dishonesty to assault.

LIQUOR — In North Carolina, you must be 21 to buy it. Beer and wine for the rest of you (18 or older).

LIBRARY — Perkins has more than 3 million books, but it seems like the one you need is always checked out. It's also a campus hot-spot on Sunday nights. See **SOCIAL LIFE**.

MEDICAL CENTER — One of the biggest and best in the country, this 1,000+ room facility is best known to undergraduates as the shortest way to get from Trent and Hanes to West Campus.

MOUNTAINS — The fall escape. The Blue Ridge mountains are perfect for camping, particularly on "leaf" or "peak" weekend, the second or third weekend in October when the changing leaves are the most beautiful.

NERD — A person who lives in the library

NORTH CAROLINA PUBLIC INTEREST RESEARCH GROUP — NC-PIRG, considered by some as the most liberal group on campus, fights against nuclear power and the draft, for women's rights and consumer interests. Part of each student's student activity fee goes to them each semester. The PIRG fee will be refunded on certain days each semester to people who disagree with their causes.

NURSING — These students are the ones in the crisp white and blue uniforms who live in Hanes House and Hanes Annex, right in the heart of the med center.

O.C. — Off-campus, usually used to refer to the 20 to 30 percent of the student body who do not live on East or West. An O.C. is also another name for an off-campus party.

PITS — The loving nickname for the Blue and White Room, the main dining hall.

PRE — As in pre-med, pre-law or pre-business. More than half of each freshman class plans to be one of the first two. Those who are not one of these three and are not engineers or computer science majors are pre-poverty.

PREPPIE — Button-down collars, Izods, L.L. Bean shoes, khakis, Fair Isle sweaters and blindingly bright colors.

PROFESSORS — Call them Dr. or Professor So and So. Assistant professors do not have tenure; associate and full professors do.

QUIET — A phenomenon found often on East, infrequently on West.

RAIN — A lot falls on Duke. Count on getting wet at least once a week and on wearing out or losing one umbrella per year.

REALBURGER — Sold in the C.I., the Realburger is one of the most edible foods on campus (next to Pits chocolate chip cookies).

SANFORD — Mr. Sanford to his face, Uncle Terry to your friends, Sanford is a former North Carolina governor who has been Duke's president for 10 years.

SCOPING — The main term for scrutinizing a member of the opposite sex. See **SOCIAL LIFE**.

SOCIAL LIFE — Another favorite complaint of students, the social life at Duke is only what you make it.

STUDENT HEALTH — Not bad for basic colds and flus. Also included in your health fee are the services at Counseling and Psychological Services. CAPS offers career, group and individual counseling, and all services are confidential.

UNIVERSITY ADMINISTRATION — Otherwise known as the Allen Building Gang. You will probably have to deal with one or more of them during your stay at Duke. The gang includes: A. Kenneth Pye, chancellor (second in command to Uncle Terry), responsible for overseeing all university activities and functions; William Bevan, provost, the chief academic officer; Ernestine Friedl, dean of arts and sciences; William Griffith, vice president for student affairs; Clark Cahow, registrar; Caroline Lattimore, dean of minority affairs; Ruby L. Wilson, dean of the School of Nursing; Aleksandar S. Vesic, dean of the School of Engineering.

UNIVERSITY CENTER — The last 10 classes have been promised one; yours will be among the first to get it. Currently the mess behind the Union building.

UNIVERSITY UNION — Sponsors Major Speakers, Special Events, Freewater Films, Performing Arts, Cable Television, Major Attractions, etc. Anyone can work for them.

VARSITY SPORTS — Men's basketball may be king, but a number of non-revenue sports are worth watching. Check out gymnastics, women's basketball, tennis, wrestling, volleyball, field hockey, swimming or track for starters.

WALL — Legend has it that the wall around East Campus is really 10 feet high, with six feet buried underground to get around James Duke's stipulation that a 10-foot wall be built to protect the women on East.

WARM WEATHER — Why some people come to Duke. Wait 'til winter!

WASHINGTON DUKE — Rumor says that if a virgin walks in front of this seated man on East Campus, he will stand up and salute.

XEROX — A machine you will learn to love. Start collecting nickels now.

YEARBOOK AND OTHER PUBLICATIONS — The Chanticleer is Duke's sometimes non-traditional yearbook. Other publications include a literary magazine, a humor magazine, a photo magazine, a general magazine and the Teacher-Course Evaluation Book.

ZZZZs — The fine art of studying the insides of one's eyelids. Practiced extensively in Perkins during exams. A student can never get enough of this.
